The Manual Wafer Transfer Series for 75mm, 100mm & 125mm wafers is a fast, low cost batch slide transfer solution.

Dependant on carrier specifications, the equipment can be supplied to transfer mixed wafer sizes.

The MWT has a self-returning transfer arm, to always be ready for transfer. The 2-pin pusher avoids wafer rotation during the transfer process.

All materials used are made from clean, organic materials.

SPECIFICATIONS

MWT75-100: L 383 x W 183 x H 211mm
MWT75: L 561 x W 210 x H 248mm
MWT100: L 561 x W 210 x H 248mm
MWT125: L 561 x W 210 x H 248mm

This tool has been designed under license from Recif Technologies using the same design principles, materials and kinematics as were used in the original equipment and wafer fabs around the world.
